

The Breakthrough DVD ***The Wisdom of Girls: Teens, Sex & Truth***

What is it?

This one-of-a-kind, all-girl, documentary-style DVD with real teens, whose sexual experience spans from virginity to teen motherhood, gives the audience a very personal view of the complexities of sex in the lives of teen girls. Through the sharing of their personal beliefs and experiences, the girls in the DVD make a powerful impact on the audience. The DVD challenges viewers to explore, decide and prepare to do what is best for them.

The program deals with the tactics their peers use to encourage sexual activity, the many reasons why girls choose to have sex even though they are not ready, the emotional and physical consequences of that choice, why girls are not practicing safe sex, and how to protect their bodies, minds and hearts. The young women explore how to decide the "right" time to have sex, and who the "right" person with whom to share that experience is. And finally, they encourage the teen audience to wait until they are ready emotionally, physically and psychologically.

A 27 page Facilitator's Guide is included.

What People are Saying About the Breakthrough DVD *The Wisdom of Girls: Teens, Sex & Truth*

"The *Wisdom of Girls* delivers EXACTLY what the title says it does! Under the intelligent guidance of teen expert and creator Barb Steinberg, teen girls speak candidly and share the wisdom of their own experiences, struggles and hopes. Powerful questions are posed after each section so the DVD becomes both interactive and practically applicable for its viewers. After having personally worked with over 10,000 teen girls, I can wholeheartedly endorse both the validity and raw honesty with which *The Wisdom of Girls* is delivered. At a time when teen girls are more at risk for STD's and sexual objectification, *The Wisdom of Girls: Teens, Sex and Truth* is a must for all life skills programs, therapists and teen group leaders, and of course parents raising teen girls today!"

Tami Walsh, M.A.

President, Teen Wisdom Inc.

"We used this DVD to talk to high school girls about sex in our high school program. The girls loved the fact that the DVD included the interviews of the girls who were their age...I highly recommend it to parents who are looking for ways to start sex conversation with their daughter." – Olga Knapp, Prevention Specialist

"This is the information I have been waiting for that has never been said out loud. This DVD will guide our teens in making healthy decisions when it comes to their sexuality." – Mary Gonzales, Health Teacher/Mom

"This is a candid video by girls, about girls and for girls, centering around the "touchy" subject of sex...You can tell that this video was clearly created by someone very much in-touch with the teen psyche because it never seems boring, uncomfortable or dogmatic (as I remember sex education videos being when I was a teen!). This video would be ideal not just for educators but also for parents and/or teens to watch together. I highly recommend it!" – Christi, Mom

"It was an education for me as an experienced woman over 50 -- my friends and I never really discussed these things in adolescence or young adulthood! So it was helpful to hear what these girls had to say as I continue to visualize age-appropriate discussions with my young daughter... The video is tasteful, authentic, and sometimes heartbreaking. I can still see the face of the young mother who, for me, stole the show." - Eliza Jane, Mom

"Barb's fresh, honest approach positions her as a welcomed authority on teen girls." – Carol Covelli, LCSW, Psychotherapist

"What these girls are saying is the truth. It's real. It's on our level." – Tina, 14

"It has all the information a girl needs to know." – Alex, 17
